TERMINAL**

Statement

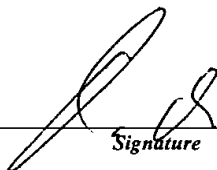

The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional.

Through a review of the above-referenced case, it has come to Applicants' attention that the time limitation allowed by the USPTO to correct the informalities indicated on the Notice to File Corrected Application Papers which was mailed on March 19, 2001, was unintentionally missed.

The error stemmed from Applicants' reliance on CPI, a patent management software system that is used for docketing actions, which indicated the action due but did not specify extension times and an eventual final due date (please see copy enclosed). The software system will be updated manually from now on, in order to provide the above mentioned dates for all similar future activities.

Responsive to the Notice to File Corrected Application Papers, enclosed please find a substitute specification formatted with proper margins in compliance with 37 CFR 1.52.

Applicants respectfully request that the formal application be accepted and that it should replace the informal one submitted on the filing date.
